Dolliver Sides With Protectionists For First Time.

Washington, May 24.—The lumber schedule of the tariff was under consideration in the senate today almost the entire day, with Senators Root, Heyburn, Borah and Dolliver contending on the one hand for protection for the industry and Senators Clapp, Burkett and McCumber arguing as strenuously against that policy. The day closed with more than a two-thirds vote against Senator McCumber's free lumber amendment, the ballot showing 25 and 56 against.

The surprise of the day was the attitude of Senator Dolliver, who heretofore has stood with the "progressives" throughout the present tariff fight. He today took positive position against the radical demand for free lumber, but expressed the opinion that the industry would not suffer from a reduction of the Dingley rates.

For the Golden Cyclone Sufferers

At their regular meeting Tuesday night the City Council unanimously voted to donate \$100 to the sufferers from the cyclone at and near Golden. This is a very generous donation on the part of the city.

WILL VETO HEADLIGHT BILL.

Hadley Notified by Trainmen Legislation Is Unnecessary

Jefferson City, Mo., May 26.—Governor Hadley indicated today that he will veto what is known as "the headlight bill." This is a Senate measure, introduced by Senator McAllister, of Monroe, and requires railroad engines to be equipped with headlights of not less than 1,500 candle-power.

More time was spent by the Legislature in considering this measure than was devoted to all the appropriation bills combined. It was amended and batted back from the Senate to the House and from committee to committee before it finally passed. It was recommended by the Railway Trainmen.

C. E. Whitsett, of Moberly, who represents the Railroad Firemen's Association, notified the Governor today that the railroads and Railroad Trainmen have reached an understanding in the matter of headlights and there no longer will exist any necessity for legislation on the subject.

MAY CALL SPECIAL ELECTION

A Special Election to Vote Bonds to Install a Municipal Electric Light Plant May be Called by Council

The Mayor and Committee of the City Council spent several hours Wednesday in investigating the proposition of calling a special election, petitioned for by a majority of the votes of Monett, to vote bonds to build a municipal electric light plant.

Representatives from construction companies of Kansas City and Joplin were in conference with the committee and estimates and profiles were submitted.

It seems to be the intention of the committee to recommend the calling of a special election in response to the petition of the voters to vote on the proposition to issue bonds not to exceed \$35,000 for the purpose of installing an electric light plant.

The council has the assurance that such a plant will, when installed, be the best and most up-to-date of any plant in the southwest and will be ample for the needs of the city for all time to come.

The estimates now on file call for ten-800-candle power Arc lights on Broadway and seventy-two 60 candle power Temgsten lamps to be distributed through the city. There will be over eighteen miles of wire.

To show the contrast, we are told that the arc lights now on Broadway are 240 candle power, while the ones in the estimates are 800 candle power.
